

From first contact to printed Twin Card in under 60 seconds.

The Journey

Zero to 100 in less than 60 seconds.

Attendee approaches, photo is captured, Twin Card is generated, final card is printed, and the attendee leaves with a card and goodie bag.

Generation Mix

49 fal.ai
5 Stability
2 fallback

Model stack held up in production. fal.ai carried most of the load; fallback was limited to 4% of live runs.

Goal Choices

Get Back To Life	41%
Advanced Care	36%
Less Pain	23%

Winner: Get Back To Life, 23 of 56.
Booth team: undecided attendees were often guided to 1 or 3, but many women selected 2 quickly and strongly. Get Back To Life resonated most broadly.

Booth Insight

“A user mentioned that she would like to have a conversation, a real honest conversation with herself.”

- The avatar was not only a novelty. Women described wanting multiple avatar experiences: mobile guardian and larger, private at-home reflection.
- One attendee called it “naked truth” time: not an AI scolding her, but herself reflecting back on the choices she said she wanted to change.
- Core insight: self-to-self accountability may land differently than a doctor, coach, or AI telling the person what to do.
- Board takeaway: operational proof is strong; the deeper opportunity is emotional resonance and conversion polish.
